

SOUTHERN AFRICAN SPINAL CORD ASSOCIATION

APPLICATION FOR MEMBERSHIP

The Southern African Spinal Cord Association (SASCA) is an organisation whose objective it is to study all problems related to traumatic and non-traumatic afflictions of the spinal cord, with emphasis on advancement in therapy, medical and surgical treatment as well as the social integration of persons with spinal cord lesions.

SASCA members who are also members of the International Spinal Cord Society (ISCoS) benefit from a reduced rate for all congresses and workshops held by SASCA. Other benefits include a regular newsletter apprising members of events and news in the SCI sectors, as well as reciprocal relationships with international spinal cord injury associations such as the German Spine Society. By joining SASCA you will have an opportunity to be actively involved in raising the standard of care for those living with spinal cord injuries in South Africa.

Membership

- **Ordinary members** (i.e. medical practitioners, professional nurses, occupational therapists, physiotherapists, social workers, psychologists, orthotists, bio-medical engineers and speech therapists)
- **Associate members** (i.e. persons showing an interest and activity in spinal cord disability and who do not form part of one of the above professional groups)

NO membership fee is payable.

Please complete the application form below and send to: membership@sasca.org.za
